Comments: HTS that I could tell you about this site and about BURKINA in general. My husband and I will keep in contact with people in Burkina for the long term so we could probably help work out the logistical stuff if anyone is interested in going to this site. Plan on keeping above email and the above cellular # as long as I can.

IV. Helpful comments or suggestion for future students and faculty: (Please attach longer comments on a sheet of paper): AS FAR AS ROOM/ BOARD CONCERNED →

STAYING w/ FAMILY has advantages in that it facilitates your understand/integration into community/culture but you have virtually no control over what you eat/drink (i.e. you have no choice other than to take risks w/ food/water). Staying in room by yourself has the disadvantage of it being more work to get to know the community/culture/local language but you have much more control over your health (i.e. food/water).
